

# Supplier Portal

**Trackmatic Supplier Portal is easily accessible and gives suppliers real-time visibility.** This portal ensures that delays are catered for and booking executions are adhered to. A unified collaborative supply chain portal.

## What it delivers

- Control of booking slots
- Real-time visibility of fleet activity in the yard
- Online repository of delivery documentation

## How it benefits you

- Full visibility into all yard execution activity
- Increases accuracy, reliability and consistency
- Improves utilisation of resources
- Better control of information
- Minimises dwell time
- Online repository of delivery documentation becomes available as soon as a booking has been completed
- Gives yard operators full control over all yard activity in real-time
- Improves customer delight and provides a platform for greater collaboration
